

Through Property Damage Appraisers' network of 650 local appraisers in more than 250 offices nationwide, the company completes more than 420,000 claims each year including heavy equipment, auto and both residential and commercial property.

Property

PDA's national team of Xactimate™ certified and property appraisal specialists conduct on-site damage assessments by responding quickly, appraising accurately, and consistently documenting our findings in the appraisal file for both commercial or residential property.

From minor damage to severe storm and catastrophe damage, PDA is highlighting its name with this new property-focused certification.

- Residential
- Commercial
- Catastrophe
- Hail
- Tornado
- Storm

Same-Day and Next-Day Service

PDA holds the nation's industry-leading cycle time of less than two days** for auto, but if you need an appraisal even faster, its Same-Day Service **guarantees** an appraisal the same day, or it's free.

If you don't want to upgrade to Same-Day Service, but still want an appraisal in less than two days, PDA's Next-Day Service option reduces downtime, helps close claims faster and improves the customer experience.

PDA is the first independent appraiser to offer Same-Day Service for auto damage appraisals. Now, available in markets across the U.S.

**Cycle times are based on the monthly average of appraisal cycle times across all PDA offices, calculated in business days.

We're here for you.
